ABOUT US

Tees Site Support delivers a comprehensive range of site support and specialist services to several core industries including Renewables, Oil and Gas, Energy from Waste, Industrial, Marine, Utilities, Construction, Power Generation, Processing and Manufacturing.

The business has led on both scheduled and unplanned outages on projects across the UK and prides itself on providing the highest quality site support services in the industry.

With accreditations including ISO 9001, ISO:14001, ISO:45001, IRATA and ConstructionLine membership the business delivers several service streams to the industries in which it operates. These services include IRATA Rope Access Specialists, Confined Space Entry, Rescue Services, Industrial Cleaning, Inspection & Maintenance, Site Support 24/7 365, Specialist Labour & Plant Hire and Specialist Project Management.

From the company's Head Office in Teesside, Tees Site Support provides some of the most highly skilled teams to ensure plants and assets continue to operate effectively and profitably seven days a week, 365 days a year.

A person wearing a high-visibility jacket and gloves, holding a metal hook or tool. The image is dark and moody, with a blue and green color palette. The person is wearing a yellow high-visibility jacket with reflective strips and yellow gloves. They are holding a large metal hook or tool, possibly a part of a safety harness or a piece of equipment. The background is dark and out of focus.

OUR SERVICES

Tees Site Support offers a comprehensive range of site support and specialist services underpinned by a highly professional and experienced team with decades of industry experience.

IRATA Rope Access Specialists

Providing a comprehensive service from IRATA Rope Access to Cradles, MEWP and Deck Systems, Tees Site Support offers a range of specialist access solutions from teams to tools to make sure your access requirements are met on time and on budget.

Confined Space Entry

Specialists in Rope Access, our teams can enter the most confined spaces to undertake inspection, cleaning, blockage removal and remedial work on assets including silos, boilers and gasifiers.

Rescue Services

With all Access Technicians qualified to City and Guilds and IRATA standards, Tees Site Support provides industry leading at height and confined space rescue and retrieval services that ensure personnel and property are kept safe at all times.

Industrial Services

From 'clean downs' to preventative maintenance & general construction support to fabrication and engineering services, Tees Site Support provides specialist cleaning and repair teams that ensure the maintenance and extension of asset life. Similarly, we understand when assets are no longer performing at optimum levels and can support with decommissioning services when these are required.

Inspection and Maintenance

From new builds to general maintenance, Tees Site Support provides a range of Inspection and Maintenance solutions that ensure structures and sites remain functional and safe. Providing trades qualified to the highest standards, solutions range from hazardous areas to general site maintenance and upkeep.

Site Support 24/7 365

Our comprehensive range of site support services are available throughout the year, 24/7 and 365 days. Whether plant, labour, services or project management support to some of the biggest companies & sites in the UK under a single point of contact. Tees Site Support delivers an end to end offering that ensures sites continue to perform effectively and assets operate at their optimum. Our teams ensure services from Inspection to Cleaning and Specialist Access to Rescue are delivered to the very highest standards and are underpinned with safety at their core.

Specialist Labour & Plant Hire

We provide an extensive range of specialist labour and plant hire to suit our client needs. From labour and plant to supplement existing on-site teams, or equipment and skills to manage and deliver an end to end project, Tees Site Support provides the services to meet all your requirements.

Specialist Project Management

At Tees Site Support, we take the stress out of managing complex specialist projects. Whether it's balancing multiple contractors, coordinating specialist plant requirements, or overseeing intricate operations, our team ensures every element works seamlessly together. We act as the central point of control, expertly managing all aspects on your behalf to keep your project on track, on budget, and to the highest standards. With Tees Site Support, you can trust that your special project will be handled with precision and efficiency, leaving you free to focus on your core business priorities.

OUR MISSION

Our commitment to customers is to provide the highest levels of service at all times, underpinned by a culture of safety, and with a focus on cost effectiveness and optimal performance of both plant and people.

Mission Statement

Honesty – We operate with complete honesty and transparency ensuring integrity in everything we do

Commitment – Our experienced and dedicated teams are committed to consistently delivering exceptional service across all our projects

Partnership – We are committed to working in collaboration with our clients and teams to achieve continued success

Responsibility – We take accountability on everything we deliver, working to continuously innovate and deliver excellence

Professionalism – We pride ourselves on delivering the highest levels of service, expertise and reliability across all our projects

Conviction -We are committed to delivering on what we say and securing the confidence of our clients and other stakeholders.
